

SHUBHAM KUMAR

Data Analyst — MIS Report — Business Intelligence — Automation
shubhamgrg33@gmail.com — +91 7988078515 — linkedin.com/in/shubham-garg53

SUMMARY

Data Analyst with 3 years and 9 months of experience in data analysis, MIS reporting, and business intelligence. Skilled in SQL, Advanced Excel, Power BI, Looker Studio, and Python for data cleaning, transformation, and analysis. Proven track record of improving efficiency through automated workflows, dashboard development, and KPI tracking. Strong ability to generate actionable insights and support data-driven decision-making across cross-functional teams.

SKILLS

- **Data Analysis:** Advanced Excel (Power Query, Power Pivot), Google Sheets, Python
- **Databases:** SQL (Joins, CTE, Data Validation, Data Extraction)
- **BI & Visualization:** Power BI, Looker Studio (Dashboard Development)
- **Automation:** N8n, API Integration, OpenAI API, Apps Script
- **Core Concepts:** Data Transformation, KPI Tracking, Data Validation, Business Insights

WORK EXPERIENCE

Serve Vision Pvt. Ltd.

Jun 2023 – March 2026

Data Analyst

- Prepared and automated weekly and monthly MIS reports, improving decision-making and reducing reporting time by **50%**
- Developed interactive Looker Studio dashboards for traffic, leads, and KPI tracking, reducing manual monitoring time by **1–1.5 hours daily**
- Performed data cleaning, validation, and structured data management using Google Sheets, improving data accuracy and saving **2–3 hours per week**
- Designed and implemented automated workflows using n8n and OpenAI API, reducing manual effort by **60%** and saving **8–10 hours per week**
- Created dashboards and reports to monitor business KPIs and generate actionable insights for performance tracking and planning
- Supported cross-functional teams including **Marketing, Accounts, Management, and Operations** by providing data analysis, reports, and insights, reducing turnaround time by **2–3 hours per team per week**
- **HSIM (Hindustan School of Internet Marketing):** Managed end-to-end student lifecycle data (demos, admissions, fees, certifications, syllabus), automated email workflows, and built dashboards for performance and batch tracking, saving **6–8 hours weekly**
- **CAP Academy (Cricket Academy of Pathans):** Managed student enrollment, attendance, and performance data in centralized systems, improving data tracking and reducing administrative follow-ups by **30%**
- Developed automated content and reporting workflows (WordPress publishing system) to streamline operations and ensure consistency

Kwiktech Ventures

Aug 2022 – Jun 2023

MIS Executive

- Analyzed operational datasets using Advanced Excel and data analysis techniques to improve reporting accuracy
- Developed Power BI dashboards for real-time inventory tracking and performance monitoring
- Performed data cleaning, validation, and consistency checks across multiple datasets
- Generated reports and insights to support business decision-making and operational planning

ACHIEVEMENTS

- Awarded **Certificate of Excellence, Serve Vision Private Limited** — Apr 2024
- Awarded **Certificate of Excellence, Serve Vision Private Limited** — Mar 2026

PROJECTS

Centralized Data Management & Dashboard System

- Built structured data pipelines using **Google Sheets** with validation and automation
- Utilized **SQL** for data extraction, transformation, and efficient querying
- Developed interactive **Looker Studio dashboards** for real-time tracking and insights

- Reduced manual effort by **70%** and improved decision-making speed

Automated MIS & Call Analysis System

- Built an automated call analysis workflow using OpenAI Whisper API for speech-to-text and GPT-5.2 Mini for summarization
- Generated structured summaries, call ratings, and MIS reports from raw call data
- Processed **5+ hours of calls in just 20 minutes**, significantly reducing manual effort and turnaround time

Data Automation & Reporting Pipeline

- Designed an automated data pipeline integrating APIs for structured data processing and reporting
- Reduced manual data processing by **80%** and improved efficiency
- Generated dashboards and outputs for analysis and decision-making

Cross-Functional Contributions (Accounts & HR):

- Managed accounting and HR data including financial records, invoicing, employee records, and documentation with structured workflows.
- Built interactive dashboards for financial KPIs, employee performance, attendance tracking, and reporting.
- Automated key processes (billing, TDS data prep, onboarding/offboarding, HR documentation), reducing manual effort and turnaround time.
- Supported budget tracking, expense optimization, and compliance while improving decision-making through data insights.
- Improved overall operational efficiency by up to **35%** through automation, data structuring, and workflow optimization.

EDUCATION

B.T.M, Kurukshetra University
Class XII (Commerce), CBSE
