My Work

SUMMARY

Data Analyst with 4+ year of experience in data analysis, MIS reporting, and business intelligence. Skilled in SQL, Advanced Excel, Power BI, Looker Studio, and Python for data cleaning, transformation, and analysis. Proven track record of improving efficiency through automated workflows, dashboard development, and KPI tracking. Strong ability to generate actionable insights and support data-driven decision-making across cross-functional teams.

SKILLS

- **Data Analysis:** Advanced Excel (Power Query, Power Pivot), Google Sheets, Python
- **Databases:** SQL (Joins, CTE, Data Validation, Data Extraction)
- **BI & Visualization:** Power BI, Looker Studio / Data Studio (Dashboard Development)
- **Automation:** N8n, API Integration, OpenAI API, Apps Script
- **Core Concepts:** Data Transformation, KPI Tracking, Data Validation, Business Insights

ACHIEVEMENTS

- Awarded **Certificate of Excellence, Serve Vision Private Limited** — Apr 2024
- Awarded **Certificate of Excellence, Serve Vision Private Limited** — Mar 2026

WORK EXPERIENCE

Pragati Realty Edge — Sr. MIS Executive

May 2026 – Present

- Leading MIS reporting and data management, ensuring accuracy across sales and operations data.
- Developing the Pragati CRM (Google Apps Script), including scoring dashboards and role-based access.
- Performing data analysis and validation to support leadership decision-making.
- Building automated dashboards and reports for real-time performance tracking.

Serve Vision Pvt. Ltd. — Data Analyst

Jun 2023 – Mar 2026

- Prepared and automated weekly and monthly MIS reports, improving decision-making and reducing reporting time by **50%**
- Developed interactive Looker Studio dashboards for traffic, leads, and KPI tracking, reducing manual monitoring time by **1–1.5 hours daily**
- Performed data cleaning, validation, and structured data management using Google Sheets, improving data accuracy and saving **2–3 hours per week**
- Designed and implemented automated workflows using n8n and OpenAI API, reducing manual effort by **60%** and saving **8–10 hours per week**
- Created dashboards and reports to monitor business KPIs and generate actionable insights for performance tracking and planning
- Supported cross-functional teams including **Marketing, Accounts, Management, and Operations** by providing data analysis, reports, and insights, reducing turnaround time by **2–3 hours per team per week**
- **HSIM (Hindustan School of Internet Marketing):** Managed end-to-end student lifecycle data (demos, admissions, fees, certifications, syllabus), automated email workflows, and built dashboards for performance and batch tracking, saving **6–8 hours weekly**
- **CAP Academy (Cricket Academy of Pathans):** Managed student enrollment, attendance, and performance data in centralized systems, improving data tracking and reducing administrative follow-ups by **30%**
- Developed automated content and reporting workflows (WordPress publishing system) to streamline operations and ensure consistency

Kwiktech Ventures — MIS Executive

Aug 2022 – June 2023

- Analyzed operational datasets using Advanced Excel and data analysis techniques to improve reporting accuracy
- Developed Power BI dashboards for real-time inventory tracking and performance monitoring
- Performed data cleaning, validation, and consistency checks across multiple datasets
- Generated reports and insights to support business decision-making and operational planning

PROJECTS

Centralized Data & BI Dashboard System

- Built automated data pipelines using **Google Sheets + SQL** for data cleaning and transformation
- Developed **Looker Studio dashboards** for real-time MIS reporting and KPI tracking
- Reduced manual effort by **70%** and improved decision-making efficiency

Automated MIS & Call Analytics

- Automated call analysis using **Whisper API + GPT**, generating summaries, ratings, and MIS reports
- Processed **5+ hrs data in 20 mins**, accelerating reporting turnaround

Data Automation & Reporting Pipeline

- Built API-integrated data pipeline for automated reporting and dashboard generation
- Reduced manual processing by **80%** and improved data efficiency

Cross-Functional Impact (Accounts & HR)

- Managed **financial & HR datasets** (invoicing, bills, employee records) with structured MIS workflows
- Built **dashboards** for financial KPIs, attendance, and performance tracking
- Automated **billing, TDS, and HR processes**, reducing manual effort and turnaround time
- Improved **operational efficiency by 35%** and enabled data-driven decision-making

EDUCATION

B.T.M , Kurukshetra University	2018
Class XII (Commerce), CBSE	2015
